

**Tools you need to grow  
a successful conservation planting -  
weed management for land owners**

Now that you've established a riparian buffer or grassland planting on your property, it's essential that you protect it from the invasion of weeds. Weeds can cause a detrimental impact to your planting. This program will show you how to identify various noxious and invasive weeds, best management practices to control weeds in various plantings and learn more about wildlife habitat and targeted species.

**DVD Chapters:**

- Crep for Wildlife**
- Weed Lifecycles**
- Identification of Noxious and Invasive Weeds**
- Applying Herbicide**
- Sprayer Calibration**
- Weed Management in Forest Buffers**
- Weed Management in Grasslands**
